USDA to Gather Data About Farm Labor

COLUMBIA, MISSOURI – March 15, 2022 -- USDA’s National Agricultural Statistics Service (NASS) will conduct its biannual Agricultural Labor Survey in April. The survey will collect information about hired labor from 794 Missouri farmers and ranchers. NASS will publish survey results May 25 in the Farm Labor report available on the NASS website.

In the survey, NASS asks producers to answer a variety of questions about hired farm labor on their operations, including total number of hired farm workers, the total hours worked, and total wages paid for the weeks of Jan. 9-15 and April 10-16. Survey participants can respond online at agcounts.usda.gov or by mail.

“Agricultural labor data are critical in helping producers when hiring workers and estimating expenses,” said Bob Garino, NASS’s Missouri State Statistician. “The data that farm operators provide through NASS’s Agricultural Labor Survey also allow federal policymakers to base farm labor policies on accurate information.”

USDA and the U.S. Department of Labor use the results of this survey to estimate the demand for and availability of seasonal agricultural workers, establish minimum wage rates for agricultural workers, administer farm labor recruitment and placement service programs, and assist legislators in determining labor policies.

“By asking about two separate time periods each time we collect data during the year, we are able to publish biannual data and capture seasonal variation,” said Garino. “This approach reduces the number of times we survey farms, while ensuring that accurate and timely data are available.”

All previous Farm Labor publications are [available](#) on the NASS website at www.nass.usda.gov. For more information on NASS surveys and reports, call the NASS Heartland Regional Office at (800) 551-1014. Participants can visit youtu.be/6oWSOjGTQzU for further instructions on completing the survey.

Producers responding online will now use NASS’s new Respondent Portal. On the portal, producers can complete their surveys, see previously reported data, access data visualizations and reports of interest, link to other USDA agencies, get a local weather update and more.

Average Yearly Wage Rates (\$/hr)		
CORN BELT I (IL, IN, OH)	2020	2021
All Farm Labor	15.99	16.61
Animal Workers	14.57	15.38
Crop & Animal Workers	15.31	15.89
Crop Workers	15.61	16.08
CORN BELT II (IA, MO)	2020	2021
All Farm Labor	15.94	16.92
Animal Workers	15.20	16.01
Crop & Animal Workers	15.37	16.19
Crop Workers	15.54	16.36
