

# Missouri Agricultural Prices

Released September 30, 2022

The August Prices Received Index 2011 Base (Agricultural Production), at 131.4, decreased 1.8 percent from July but increased 20 percent from August 2021. At 128.4, the Crop Production Index was up 3.2 percent from last month and 16 percent from the previous year. The Livestock Production Index, at 134.6, decreased 7.7 percent from July, but increased 24 percent from August last year. Producers received lower prices during August for broilers, market eggs, milk, and grapes but higher prices for strawberries, lettuce, hay, and hogs. In addition to prices, the volume change of commodities marketed also influences the indexes. In August, there was decreased monthly movement for wheat, corn, soybeans, and strawberries and increased marketing of cattle, grapes, tobacco, and hogs.

## Prices Received Indexes – United States: August 2022 with Comparisons
