PULSE CROP COUNTY ESTIMATES

County-level estimates for 2023 pulse crops are now available, according to the USDA's National Agricultural Statistics Service. The estimates, based primarily on surveys conducted with farmers and ranchers last fall, can be accessed using the QuickStats online database, found here: <https://quickstats.nass.usda.gov>. Additionally, revisions for crop years 2018-2022 are also available.

The commodity estimates include chickpeas, dry edible peas, and lentils.
