¹ A farm is defined as any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the year.

Nevada Tribal Lands

Native Americans, both on and off reservation lands, contribute significantly to the agricultural production of Nevada. Farms operated by Native Americans identified in the 2017 Census of Agriculture accounted for 22.3 percent of all non-Federal land in farms in the State. American Indian farm operators accounted for a total of 265 farms.

Total Cash Receipts by Commodity - Nevada: 2021

Value Added to the U.S. Economy by the Agricultural Sector:

The value-added format is used to present the income accounts. Changes in commodity production is the cause of most of the volatility in the income accounts and the presence of more disaggregated components under the value-added format makes it much easier to discern what forces are driving the changes and the trends in farm income. In addition, the value-added approach to the sector accounting has the advantage of being the format accepted and utilized internationally, thereby enabling comparison across countries, and is consistent with that employed by the Organization for Economic Cooperation and Development. Due to the large size of the value-added worksheet, the value of agricultural sector products and net government transactions are broken out in the following tables. Net value added and net farm income calculations are shown on the next page.

¹ Value of agricultural sector production is the gross value of the commodities and services produced within a year.

² 2022 data to be released September 1, 2023.

³ A positive value of inventory change represents current-year production not sold by December 31. A negative value is an offset to production from prior years included in current – year sales.

Nevada Conservation Districts

Nevada Department of Conservation & Natural Resources
Nevada Conservation Districts
901 S. Stewart Street – Suite 1003
Carson City, NV 89701
(775) 684-2700

- Nevada Department of Conservation & Natural Resources: <http://dcnr.nv.gov>
- Nevada Association of Conservation Districts: <https://www.nvacd.org>
- Nevada Revised Statute Chapter 548: <https://www.leg.state.nv.us/NRS/NRS-548.html>

Since the Dust Bowl days of 1937, Nevada's Conservation Districts (see below map) have worked toward conservation and proper management of the state's soils, waters, and other natural resources. Conservation Districts (CDs) are locally elected and led; the only entities throughout the United States that can work across ownership boundaries to unite people and groups and accomplish conservation and planning under local leadership with the authority of NRS 548 in Nevada.

The Nevada Conservation District Program supports local CDs and is housed within the Director's Office of the Department of Conservation and Natural Resources. The Governor-appointed State Conservation Commission guides and regulates Nevada's 28 CDs. The Nevada Association of Conservation Districts is a non-profit, nongovernmental organization encompassing the 28 CDs in Nevada and serves as a state voice for conservation districts. It also provides educational forums and recognizes outstanding district individuals and programs.

USDA National Agricultural Statistics Service (NASS) – (Regional/Field Office Locations)

Northeastern Regional Office (Harrisburg, PA):

- Serving Delaware, Maryland, New England, New Jersey, New York, and Pennsylvania

Pennsylvania	(717) 787-3904	(Vacant)*	4050 Crums Mill Road, Ste 203; Harrisburg, PA 17112
Delaware	(301) 347-8179	Shareefah Williams	2320 S. Dupont Highway; Dover, DE 19901
Maryland	(301) 347-8179	Shareefah Williams	50 Harry S. Truman Pkwy, Ste 210; Annapolis, MD 21401
New England	(717) 787-3904	Pamela Hird	4050 Crums Mill Road, Ste 203; Harrisburg, PA 17112
New Jersey	(503) 308-0404	Bruce Eklund	P. O. Box 330; Trenton, NJ 08625
New York	(518) 457-5570	Charles Walker	10B Airline Drive; Albany, NY 12235

Northern Plains Regional Office (Lincoln, NE):

- Serving Kansas, Nebraska, North Dakota, and South Dakota

Nebraska	(402) 437-5541	Nicholas Streff*	100 Centennial Mall North, Ste 263; Lincoln, NE 68508
Kansas	(800) 582-6443	Doug Bounds	3705 Miller Parkway, Ste A; Manhattan, KS 66503
North Dakota	(800) 582-6443	Darin Jantzi	1805 NDSU Research Park Dr Bldg. 2; Fargo, ND 58102
South Dakota	(800) 582-6443	Erik Gerlach	4301 West 57th Street, Ste 103; Sioux Falls, SD 57108

Northwest Regional Office (Olympia, WA):

- Serving Washington, Alaska, Idaho, and Oregon

Washington	(360) 890-3300	Dennis Koong*	P. O. Box 609; Olympia, WA 98507-0609
Alaska	(907) 745-4272	Andrew Brosier	P. O. Box 799; Palmer, AK 99645-0799
Idaho	(208) 421-2299	Ben Johnson	550 W Fort Street, Ste 180; Boise, ID 83724
Oregon	(503) 260-3901	Dave Losh	1201 NE Lloyd Blvd. Suite 1000; Portland, OR 97232

Southern Plains Regional Office (Austin, TX):

- Serving Texas and Oklahoma

Texas	(512) 501-3200	Wil Hundl*	300 E. 8th Street; Austin, TX 78701
Oklahoma	(405) 415-8850	Troy Marshall	2800 North Lincoln Blvd; Oklahoma City, OK 73105

Southern Regional Office (Athens, GA):

- Serving Georgia, Alabama, Florida, South Carolina and Puerto Rico

Georgia	(800) 253-4419	Anthony Prillaman*	355 East Hancock Avenue - Ste 100; Athens, GA 30601
Alabama	(800) 253-4419	Charmaine Wilson	355 East Hancock Avenue - Ste 100; Athens, GA 30601
Florida	(407) 648-6013	Mark Hudson	851 Trafalgar Court, Ste 310E; Maitland, FL 32751
South Carolina	(803) 734-2506	Jacqueline Moore	208 Wholesale Lane, Ste G; West Columbia, SC 29172
Puerto Rico	(706) 713-5400	Anthony Prillaman	355 East Hancock Avenue - Ste 100; Athens, GA 30601

Upper Midwest Regional Office (Des Moines, IA):

- Serving Iowa, Minnesota, and Wisconsin

Iowa	(515) 776-3400	Greg Thessen*	210 Walnut Street, Ste 833; Des Moines, IA 50309
Minnesota	(651) 728-3113	Dan Lofthus	375 Jackson Street, Ste 610; St. Paul, MN 55101
Wisconsin	(608) 287-4775	Greg Bussler	2811 Agriculture Drive; Madison, WI 53718-6777

*Regional Director

NASS Confidentiality Pledge

1) Names, addresses, and personal identifiers are fully protected by NASS with the force of law.

After data collection, the National Agricultural Statistics Service (NASS) processes the data independent of names and addresses. Original paper questionnaires are kept in a secure area, and then destroyed as prescribed by law. Names, addresses, phone numbers, and other personal identifiers are held securely by NASS and used only to conduct official business. Title 7, U.S. Code, Section 2276 and the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) prohibit public disclosure of individual information. Personal information, including reported data, is protected from legal subpoena and Freedom of Information Act requests.

2) Only authorized persons working for NASS as employees or sworn agents, who are subject to fines and imprisonment for unauthorized disclosure, can access individual record data and only for approved official purposes.

All information collected by NASS about individuals or operations under a pledge of confidentiality is protected by law. Every person working for or in cooperation with NASS – from the Agency Administrator to the person collecting the information – signs a confidentiality form which states that no confidential reported information will be compromised. This includes sworn agents who are authorized by NASS to provide data collection support or statistical research. Any offender is subject to a jail term (5 years), a fine (\$250,000), or both.

3) Data security is a top priority during preparation of NASS reports.

Official USDA statistics issued by the NASS Agricultural Statistics Board (ASB) are prepared under tight security until public release of the reports at preannounced dates and times. The ASB restricts prerelease access to and communication about survey and census results. In many cases, a locked area with a uniformed guard is employed to prevent premature disclosure of market-sensitive information. NASS official statistics are released to everyone at the same time. Reports are available on the Internet within seconds of the scheduled release.

4) Published statistics from NASS surveys and censuses will not disclose reported data from an individual.

Individual participants in a NASS survey can rest assured that summary data will not be published in a way that would identify them or data for their operation without their written permission. For instance, if only one farm in a county produced a particular crop, then NASS will protect the privacy of that individual farm by combining the data for that crop with reports from other counties to publish only combined totals.

5) Data are protected from cybersecurity threats

Per the Cybersecurity Enhancement Act of 2015, your data are further protected by the Department of Homeland Security (DHS) through cybersecurity monitoring of the systems that transmit your data. DHS will be monitoring these systems to look for viruses, malware and other threats. In the event of a cybersecurity incident, and pursuant to any required legal process, information from these sources may be used to help identify and mitigate the incident.

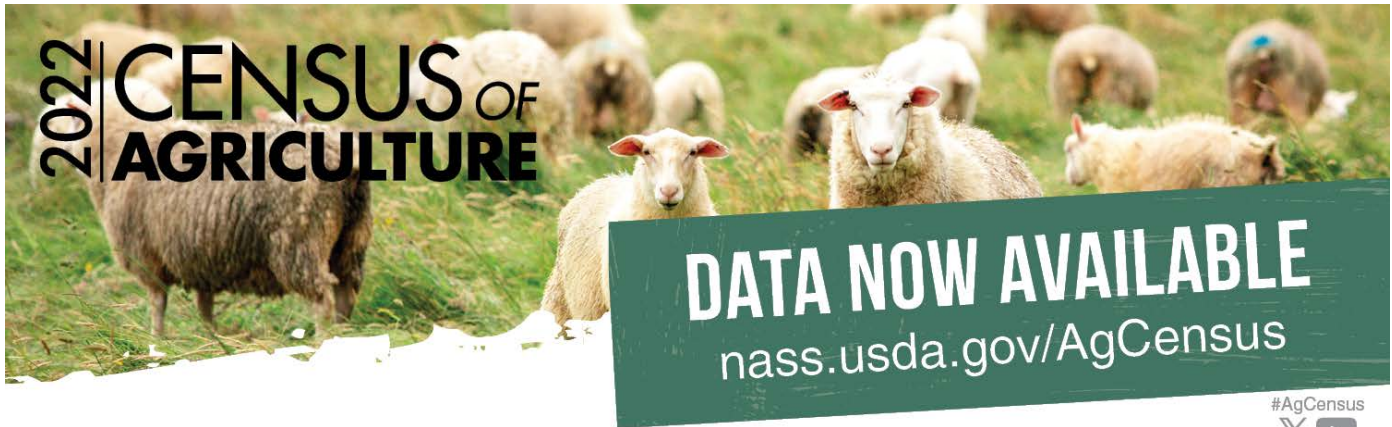

When NASS Collects Data for Other Statistical Purposes:

1) NASS will clearly communicate to participants the survey purpose, the names of any cooperating sponsors, how the data will be used, and the confidentiality protections provided.

Data collection for other agencies under the NASS pledge of confidentiality will afford the same protections described in 1 through 5 above. Data collected for analysis by a sponsoring agency will have all personal identifiers, such as name, address, and telephone number, removed before access by the analyst. Analysts will sign confidentiality statements as sworn NASS agents. Results of the study are released to everyone free of charge. No organization is given ownership of the data, to eliminate the possibility of it having an advantage over others. NASS will not conduct a survey for private, proprietary purposes.

2) Some data collected by NASS are required by law and subject to audit.

Requests for data required by law and subject to audit will clearly indicate that the reports have different confidentiality protections than described earlier since the data may be audited. NASS and the participating authority that conducts the audits will protect individually reported data to the maximum extent provided under the law and will work directly with reporting entities to resolve discrepancies discovered in the audit process. Summary statistics are provided to the USDA agency responsible for administering the specific programs that rely upon the required data. Program results are released at the discretion of the administering agency without revealing data reported from an individual.
