### **REPORTERS COMMENTS, By County**

Reporters are from Extension Service (Ext), Natural Resources Conservation Service (NRCS), Farm Service Agency (FSA), Conservation District (CD), farmers, commodity specialists, or other knowledgeable individuals.

#### Cayuga County; Colleen Cargile, Cayuga County FSA:

This week there has been a stretch of fairly nice weather. The multiple days without rain have allowed quite a few acres of corn silage to be harvested. I haven't seen many acres of soybeans combined yet, but most fields have dropped leaves and look like they should be ready to harvest soon. For those that have begun harvesting soybeans, there has been some discussion about many of the pods not containing any beans. Hopefully this is not a widespread issue, but once more people begin harvesting, we will have a better idea.

## Delaware County; Mariane Kiraly, Cornell Cooperative Extension:

Continues to be very dry.

#### Livingston County; Dean R Pendergast:

Winter wheat plantings look good to excellent. Corn silage harvest continues at a fast pace. Soybean harvest has started.

## **Ontario County; Joann Rogers, County Executive Director FSA:**

Ontario County continued with cabbage, fruit and vegetable, corn silage and soybean harvest along with fall tillage and small grain plantings. Pockets for frost reported.

#### Suffolk County; Alice V Wise:

In Long Island vineyards, the harvest of white varieties such as Chardonnay is complete. Red grapes for rose wine have also been harvested. A majority of the Bordeaux red varieties will hang another week or two to reach full maturity.
