U.S. DEPARTMENT OF AGRICULTURE NATIONAL AGRICULTURAL STATISTICS SERVICE

Mission

The National Agricultural Statistics Service provides timely, accurate, and useful statistics in service to U.S. agriculture.

Overview

The USDA's National Agricultural Statistics Service (NASS) conducts hundreds of surveys every year and prepares reports covering virtually every aspect of U.S. agriculture. Production and supplies of food and fiber, prices paid and received by farmers, farm labor and wages, farm finances, chemical use, and changes in the demographics of U.S. producers are only a few examples.

NASS is committed to providing timely, accurate, and useful statistics in service to U.S. agriculture.

To uphold our continuing commitment, NASS will:

- Report the facts on American agriculture, facts needed by people working in and depending upon U.S. agriculture.
- Provide objective and unbiased statistics on a preannounced schedule that is fair and impartial to all market participants.
- Conduct the Census of Agriculture every five years, providing the only source of consistent, comparable, and detailed agricultural data for every county in America.
- Serve the needs of our data users and customers at a local level through our network of State field offices and our cooperative relationship with universities and State Departments of Agriculture.
- Safeguard the privacy of farmers, ranchers, and other data providers, with a guarantee that confidentiality and data security continue to be our top priorities.

NORTH CAROLINA DEPARTMENT OF AGRICULTURE AND CONSUMER SERVICES

Mission

To provide services that promote and improve agriculture, agribusiness and forests; protect consumers and businesses; and conserve farmland and natural resources for the prosperity of all North Carolinians.

Overview

The N.C. Department of Agriculture and Consumer Services' divisions have responsibilities in regulatory and service areas covering agronomy; animal health; weights and measures; gas and oil inspection; crop and livestock statistics; USDA commodity distribution; state farm operations; food, drug and cosmetic testing for purity; agricultural marketing and promotion; agricultural marketing grading; international agricultural crop and livestock marketing; operation of the North Carolina State Fair and North Carolina Mountain State Fair; operation of four state farmers markets; research station operations; seed and fertilizer inspection; nursery and plant pest eradication activities; regulation of the structural pest control industry; agricultural environmental issues; soil and water conservation; forest management and protection; state and federal agricultural legislation; and agricultural economic analysis.

STATISTICAL REPORTS PROGRAM

The USDA's National Agricultural Statistics Service compiles current and historic statistics concerning agriculture in North Carolina. Information most often requested by farmers, the general public, and workers in government agencies are included. Reporting of crop and livestock statistics is a service provided to farmers and others in the State by NASS in cooperation with the North Carolina Department of Agriculture and Consumer Services.

The collection and dissemination of agricultural statistics started in 1863. This is one of the oldest activities of the United States Department of Agriculture. It was recognized that there were advantages of a joint relationship between the State and Federal Governments in the development of agricultural statistics. In 1919, the N.C. Department of Agriculture entered into a cooperative agreement with the U.S. Department of Agriculture to provide detailed agricultural statistics. The agreement resulted in the creation of the Agricultural Statistics Division of the North Carolina Department of Agriculture and Consumer Services.

NASS publishes official statistics on North Carolina crops, livestock, prices, and various other agricultural items. The most requested reports and the approximate dates of releases are shown in the table below. These reports and more are free and available online at www.nass.usda.gov/Publications or by writing to: State Statistician, Agricultural Statistics, PO Box 27767, Raleigh, NC 27611.

Current and historical data series can be found at <http://quickstats.nass.usda.gov>.

DEFINITIONS & METHODOLOGY

Cash receipts for agricultural commodities are defined as the gross income from sales of crops, livestock, and livestock products during a calendar year. The USDA, Economic Research Service (ERS) uses USDA, National Agricultural Statistics Service (NASS) estimates to develop state level cash receipts. The county level cash receipts in this publication are based on the ERS state level cash receipts and various NASS county data. To ensure respondent confidentiality, estimates at any level, including county estimates, are not published if those estimates would disclose any information about individual operations. More information about ERS and NASS data can be found at the following websites:

SOURCE: Economic Research Service, USDA as of August 31, 2023. Note: Farm Forest Products are not included in cash receipts but are included in other farm-related income. ¹ Totals may not equal sum of states due to rounding. ² Amounts include cash payments made directly to farmers, not including Farmer-owned Reserve Payments as these data are not available by State. Amounts also include certificate exchange gains and marketing loan gains. U.S. government direct payments by program are net payments reflecting: (1) gross payments from the U.S. government to the farm sector; (2) payments returned to the U.S. government by the farm sector; and (3) accounting adjustments. A negative value indicates payments returned exceeded gross payments during the calendar year.
