NORTH DAKOTA CROP PROGRESS AND CONDITION

FARGO, ND August 19, 2013 – For the week ending August 18, 2013, very little to no precipitation was received in most areas of the state last week, according to the USDA's National Agricultural Statistics Service. However, heavy morning dews caused by cool temperatures slowed small grain harvest in some areas. Average temperatures were slightly above normal in the northwest part of the state while the remainder of the state averaged 2 to 4 degrees below normal. Statewide, there were 6.6 days suitable for fieldwork. Topsoil moisture supplies rated 9 percent very short, 38 short, 48 adequate, and 5 surplus. Subsoil moisture supplies rated 5 percent very short, 34 short, 55 adequate, and 6 surplus.

Field Crops Report: Spring wheat turning color was 87 percent, behind last year at 100 but near 89 average. Ripe was 43 percent. Harvested was 9 percent, well behind last year's 82 and 35 average. Condition rated 1 percent very poor, 4 poor, 23 fair, 61 good, and 11 excellent.

Durum wheat turning color was 75 percent, well behind 99 last year but equal to 75 average. Ripe was 21 percent. Harvested was 2 percent, well behind last year's 57 and 20 average. Condition rated 0 percent very poor, 1 poor, 25 fair, 65 good, and 9 excellent.

Oats turning color was 95 percent, behind last year's 100 but near 93 average. Ripe was 63 percent. Harvested was 23 percent, well behind last year's 88 and 45 average. Condition rated 2 percent very poor, 1 poor, 14 fair, 69 good, and 14 excellent.

Barley turning color was 94 percent, behind 100 last year but near 96 average. Ripe was 53 percent. Harvested were 12 percent, well behind last year's 92 and 48 average. Condition rated 1 percent very poor, 4 poor, 23 fair, 65 good, and 7 excellent.
