

Tennessee Crop Weather

Tennessee Field Office • PO Box 40627 • Nashville, TN 37204 • (615) 781-5300 or (615) 891-0903 • www.nass.usda.gov

Issued Monday, April 4, 2022, 3:00 PM

For the Week Ending April 3, 2022

WHEAT CONDITION GOOD; PREPERATIONS BEGIN

In West Tennessee, the wheat condition is reported mostly good. Cattle are also reportedly good. Nutrient applications in preparation for corn planting have begun. In Middle Tennessee, light showers have helped green up pastures. Fertilizer applications take place as weather allows. Some report trial corn planting as producers prepare for planting to begin soon. East Tennessee is also experiencing green pastures and fertilizer applications. Reports of cold and dry conditions are causing some concern, specifically to wheat crop. There were 4.2 days suitable for field work. Topsoil moisture was 6 percent short, 73 percent adequate, and 21 percent surplus. Subsoil moisture was 3 percent short, 80 percent adequate, and 17 percent surplus.
