

Wisconsin had **3.5 days suitable for fieldwork** for the week ending November 20, 2022, according to the USDA’s National Agricultural Statistics Service. The state received its first widespread snowfall of the season limiting the amount of fall tillage and corn harvest that was able to be completed.

Topsoil moisture condition rated 2 percent very short, 16 percent short, 75 percent adequate and 7 percent surplus. **Subsoil moisture** condition rated 2 percent very short, 18 percent short, 75 percent adequate and 5 percent surplus.

Harvest of **corn** for grain was 77 percent complete, 12 days behind last year but even with the 5-year average. Moisture content of corn harvested for grain was 19 percent.

Winter wheat emerged was at 95 percent. Winter wheat condition was rated 83 percent good to excellent statewide, down 1 percentage point from last week.

Fall tillage was 77 percent complete, 3 days behind last year.
